

Choosing the Right AR Upper

A Simple Guide to Building the AR That Fits Your Purpose

Hunting

Barrel Length: [e.g., 18" - 20" for long-range velocity]
Gas System: [e.g., Rifle-Length for smooth cycling]
Compatible Optics: [e.g., High-Power Scope or LPVO]

Competition

Barrel Length: [e.g., 16" - 18" for maneuverability]
Gas System: [e.g., Mid-Length or Adjustable]
Compatible Optics: [e.g., Red Dot & Magnifier or LPVO]

What's Your Goal?

Home Defense

Barrel Length: [e.g., 10.5" - 12.5" for CQB]
Gas System: [e.g., Carbine-Length for reliability]
Compatible Optics: [e.g., Durable Red Dot Sight]

Range Fun

Barrel Length: [e.g., 14.5" - 16" for versatility]
Gas System: [e.g., Mid-Length]
Compatible Optics: [e.g., Iron Sights or Budget Red Dot]
