

# Choosing the Right AR Upper

A Simple Guide to Building the AR That Fits Your Purpose

## Hunting

Barrel Length: [e.g., 18" - 20" for long-range velocity]

Gas System: [e.g., Rifle-Length for smooth cycling]

Compatible Optics: [e.g., High-Power Scope or LPVO]

## Competition

Barrel Length: [e.g., 16" - 18" for maneuverability]

Gas System: [e.g., Mid-Length or Adjustable]

Compatible Optics: [e.g., Red Dot & Magnifier or LPVO]

## What's Your Goal?

## Home Defense

Barrel Length: [e.g., 10.5" - 12.5" for CQB]

Gas System: [e.g., Carbine-Length for reliability]

Compatible Optics: [e.g., Durable Red Dot Sight]

## Range Fun

Barrel Length: [e.g., 14.5" - 16" for versatility]

Gas System: [e.g., Mid-Length]

Compatible Optics: [e.g., Iron Sights or Budget Red Dot]
